PULSE & RESPIRATION PENALITES:

Points off are calculated by adding the final pulse score each day, dividing by 3 (rounding down) and applying to chart below. The same scenario is done for respiration.

Example:

Add the final pulse on each day $52+50+46 = 146$. Divide that by 3 and the result is 48.666. Round down to 48 and check chart. Points off are 1.
